Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 2 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Toro Dingo Tire-Over-Rubber Tracks Brochure in view of Woerner and Morrison as applied and for the reasons set forth in the Office action mailed 06/12/08 and with further comment in view of newly cited Bares, Whiffin and Miller, et al.

While the primary reference is deemed to show a top planar wall and controls as claimed, Bares, Whiffin and Miller each teach this arrangement and render the modification of the primary reference to comprise a top planar wall and controls as claimed obvious.

Claims 2 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Finn Skid Steer 250 in view of Woerner and Morrison as applied and for the reasons set forth in the Office action mailed 06/12/08 and with further comment in view of newly cited Bares, Whiffin and Miller, et al.

While the primary reference is deemed to show a top planar wall and controls as claimed, particularly the figures on page 2 of the reference, Bares, Whiffin and Miller each teach this conventional arrangement and render the modification of the primary reference to comprise a top planar wall with controls as claimed obvious.

Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Toro Dingo Tire-Over-Rubber Tracks Brochure or Finn Skid Steer 250 in view of Woerner and Morrison, et al. and newly cited Bares, Whiffin and Miller, et al. as applied to claim 2 above, and further in view of Bamford as applied and for the reasons set forth in the Office action mailed 06/12/08.

Applicants' arguments have been carefully considered but are not deemed persuasive. Morrison is not used as a teaching to place the controls on a substantially planar, upward facing top wall. The two primary references teach this arrangement. Morrison is used for his teaching to design a loader either to walk behind it or stand on a platform to operate it..

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
